The NSS Unit 2 of **Gayatri Vidya Parishad College Of Engineering (Autonomous)** has organized an event on the occasion of national energy conservation day is celebrated every December 14th. Volunteers initiated in presenting about the necessity of this day. Volunteer's case study on energy conservation rally helped in bringing some awareness. The event was held successfully with the presence of honorable guests.

Guest:-

Dr C.V.Nageswara Rao
M.Tech(Ph.D)
M.Tech Ph.D(A.U)
Associate Professor

Mr. Ch. Rajesh
B.Tech., M.Tech.
Assistant Professor

Mr. Bhaskara Rao Vadapalli
Assistant professor

PROGRAM AGENDA: AWARENESS ABOUT ENERGY CONSERVATION

- Introduction BY Sri Samadharshini .V(19131A04R0)
- Case study 1 BY P.S S P P lakshmana (19131A04K0)
- Case study 2 BY Sampath Sai.V(19131A04P8)
- Questioners BY Achalla Bindu Priyanka (18131A0501)
- Case study 3 BY Gayathri Boda (19131A05P1)
- Interaction with college students BY Marada gowrav srikalyan (19131A04E4)
- Fun facts BY Seela Yogitha (18131A1286)
- Slogan and pledging BY Seela Yogitha (18131A1286)

INTRODUCTION:

The presentation was started by Sri Samadharshini. V(19131A04R0) mentioning about "**The Energy Conservation Act** "which was implemented by the **bureau of energy efficiency (BEE) in 2001.**

The themes of energy conservation day for the year 20-21. Those are "**Azadi Ka Amrit Mahotsav: energy efficient India** "and"**Azadi Ka Amrit Mahotsav: clearer planet**".

Those are "**Azadi Ka Amrit Mahotsav: energy efficient India** " and "**Azadi Ka Amrit Mahotsav: clearer planet**".She discussed the types of energy resources, gave a few daily experiences where one can see the energy resources, and concluded.

CASE STUDY 1:

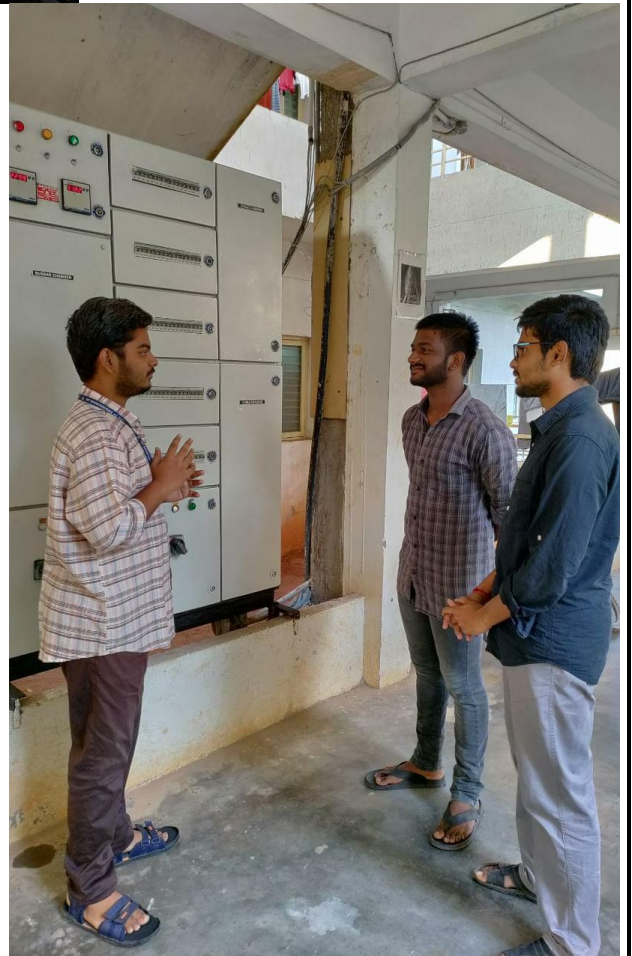

The presentation is continued by P.S S P P LAKSHMANA (19131A04K0) with a **case study on electricity conservation in apartments, flats, group houses, etc.** He discussed an incident that took place in his apartment just a few weeks ago. Enlightened them with the necessity of energy conservation and not using electrical appliances when not in use.

CASE STUDY 2:

The next case study is presented by VARA SAMPATH SAI VINDULA (19131A05P8). He made the session interactive with the guests as well as the beneficiaries. He explained the reason for choosing **the target audience as kids**. He spoke about the surprising answers that he heard from the kids. He indeed managed to explain to them the importance of energy conservation and asked them to follow it in their daily life.

QUESTIONNAIRE:

To cheer up the audience we included a questionnaire to make the session more interactive. The questionnaire was performed by Achalla Bindu Priyanka (18131A0501) most excitingly. Volunteers also participated in the questionnaire pretty well and answered the questions. Questions were the most basic and prominent things that one should know about energy conservation.

CASE STUDY 3:

After a quick warm-up session we continued the presentation with the third case study given by V SATYA SIVA LALITHA GAYATHRI BODA (19131A05P1). As she's a hostler, so choose the target audience as young students. She spoke about view incidents in her hostler where electricity is overused. She managed to gather 7-8 of her friends in a room and explained to them about the importance of electricity. They all made a small pledge to turn off the lights fans when not used and hope they do the same thing in their homes.

INTERACTION WITH THE COLLEGE STUDTENS:

Tried to bring some awareness to students by giving them a brief about energy conservation and its importance led by Marada gowrav srikalyan (19131A04E4) and volunteers.

FUN FACTS:

Towards the end of the session, discussed a few fun facts, and the session was interesting and rememberable. This part is presented by Seela Yogitha (18131A1286). Though how many things we discuss, fun facts are something we can memorialize event after the event is done long back .this helps the volunteers to remember the important things that were mentioned in the event and relate it later to put daily lives.

TIPS TO TAKE:

What best way other than concluding the session with some tips to take home . Volunteers took interest in reading the tips by themselves which is most appreciated.

Fast and Easy Energy Saving Tips

1. Turn off lights when you're not in room.

2. Don't leave your electronics ON all day long.

3. Switch to LED.

4. Using cold water reduces Electric bill.

5. Clean or Replace air filters.

6. Do full loads.

CONCLUSION:

FINALLY , concluding the session with a slogan lead by Seela Yogitha (18131A1286).

**“Take your first step which changes the path for others.
I will take the first step, which changed the path for others.”**
